Google Hangouts Meet

Your child does have an NRHEG Google Account. It is... year of graduation, first initial, dot(period), last name, @nrheg.org (ex. 29g.hanson@nrheg.org). Their password is nrheg(lunch number) (ex. nrheg1278).

Create or Join a Meeting (from Google Meet iPad app, using NRHEG Student iPad or a personal iPad/Tablet)

1. **Open the Meet App. If you are using a personal tablet, you will need to download Google Meet App. The Meet App should be on the students iPads.**
2. **Sign in with your NRHEG Google account.**
3. **Tap "Meeting Code" to manually join.** Type the meeting code provided by the teacher or facilitator.
4. **Tap "New Meeting" to create a meeting.** A Meet code will pop up for you to share.
5. YOU will then use this code to "Join" your meeting at a later date, so write this code down.

Create or Join a meeting from a web browser

You do not need a google account to join a Meet from a web browser. However, you will need to be "accepted" by the creator of the Meet.

1. **Type "meet.google.com" in the address line**
2. **Click on Join or Start Meeting**
3. **Give your meeting a name(optional) if you are creating the meeting OR type in the code you were given, to join a meeting**
4. **If creating a Meet, click "Join" and copy the link to give others to join your Meet.**
5. YOU will then use this code to "Join" your meeting at a later date, so write this code down.

Create or Join a Meeting (from Google Apps, using the Chrome browser or an NRHEG Student Chromebook)

1. **Click on the 9 dots in the upper right of a new chrome window**
2. **Click on the "Meet" App**
3. **Click on Join or Start Meeting**
4. **Give your meeting a name(optional) if you are creating the meeting OR type in the code you were given, to join a meeting**
5. **If creating a Meet, click "Join" and copy the link to give others to join your Meet.**
6. YOU will then use this code to "Join" your meeting at a later date, so write this code down.
